

Position: Geomatics Group Leader

Requisition Number: 2020-3550-05

S&ME is an employee-owned engineering firm that provides civil, geotechnical, environmental, planning, landscape architecture, land survey and construction services. Consistently ranked in the top 100 of ENR's Top 500 Design Firms, our markets are diverse and include transportation, energy, water/wastewater, commercial development, industrial, healthcare, education and government. We recruit top talent and are currently seeking a full-time Group Leader to join our team in Huntsville, Alabama.

Group Leaders are responsible for: staff supervision (technicians, administrative personnel, and professionals), training, mentoring, and coaching of employees; meeting objectives in safety, quality, human resources, finances and risk management; and staffing projects with appropriately trained and certified personnel, maximizing staff utilization and project profitability. Provide periodic field observation as necessary.

The Geomatics Group Leader in Huntsville also serves as a Community Leader, partnering with Huntsville Group Leaders in other Business Units to give S&ME visibility in the community and professional organizations. The Group Leader coordinates with their project managers and leaders/project managers in other Business Units regarding potential opportunities and supports them with resources needed to win and complete projects. This position requires effective technical, team leadership, project management, client management, business development, and communication skills.

Qualifications:

- BS in Geomatics, Land Surveying, or related field;
- 5-7 years of experience conducting and managing multi-disciplined projects;
- Professional registration in Alabama at a minimum;
- Demonstrated successful team leadership and management with a good understanding of safety policies/procedures, quality, business metrics, human resources policies/procedures, and risk management concepts;
- Excellent communication skills with clients, staff, and regulatory personnel;
- Experience with Trimble field and office products;
- Experience with AutoCAD and AutoCAD Civil 3D;
- Experience with Carlson Survey Software;
- Familiarity with 3D scanning and LiDAR;
- MicroStation/Geopak familiarity and Endroads, is a plus;
- Microsoft Office experience;
- Comfortable working in remote work areas and associated travel;
- Experience supervising and directing work of survey crews.

To apply go to www.smeinc.com/careers and click the “Career Openings” link. This is a full-time position with competitive pay based on experience. Successful candidate must meet requirements of the company’s Fleet Management Program, Substance Policy and Reference check program. Submit resume, cover letter, and salary expectations for consideration. Only qualified candidates with acceptable employment eligibility verification (I-9) will be considered. Visa assistance not provided. S&ME reserves the right to fill this position with an internal or external candidate at any time during the search. S&ME is not responsible for unauthorized job postings or submissions of resumes using external links/websites.

No candidate/recruiter calls, personal calls or walk-ins accepted.
