

WE'RE HIRING!

HALLIBURTON SURVEYING

EMPLOYMENT POSITION: PROJECT LAND SURVEYOR

LOCATION: HUNTSVILLE, AL

EMPLOYMENT TYPE: FULL-TIME

COMPENSATION: COMPETITIVE SALARIED POSITION

JOB DESCRIPTION: Halliburton Surveying & Mapping is seeking qualified candidates who are capable of managing all aspects of surveying projects that include, but not limited to, federal, state, industrial, commercial, automotive and residential work. Candidates should be proficient with AutoCAD or other similar CAD programs, robotic total stations, global position systems and data collection systems. Proficiencies with other technologies such as laser scanning and drones is recommended, but not required. The job may require the candidate to work both in the field and office on a daily basis. Candidate will be expected meet or exceed a high standard of care, and possess the ability of effectively communicating with clients and other project team members.

ABOUT US: Halliburton Surveying & Mapping utilizes surveying's most advanced technologies available to collect the critical measurements and evidence needed when assisting our Clients on a multitude of diverse projects. We have successfully worked on many of the region's signature projects, including industrial, commercial, residential, health care, municipal, state and federal properties.

Our technologies include Robotic Total Stations, Global Positioning Systems (GPS), Digital Levels, 3D Laser Scanners/LiDAR sensors, UAS Drone Mapping, Geographic Information Systems (GIS), PIX4D, Autodesk products and much more.

SAFETY: Halliburton Surveying & Mapping currently hold a Silver Level STEP program status with the Associated Builders & Contractors.
